

**PAC MAN
STREAM DECK
WALLPAPER
INSTALLATION**

These setup instructions are demonstrated using the Stream Deck XL device but the method is the same with the 15 key Stream Deck Device.

Click the gear icon in the Stream Deck software

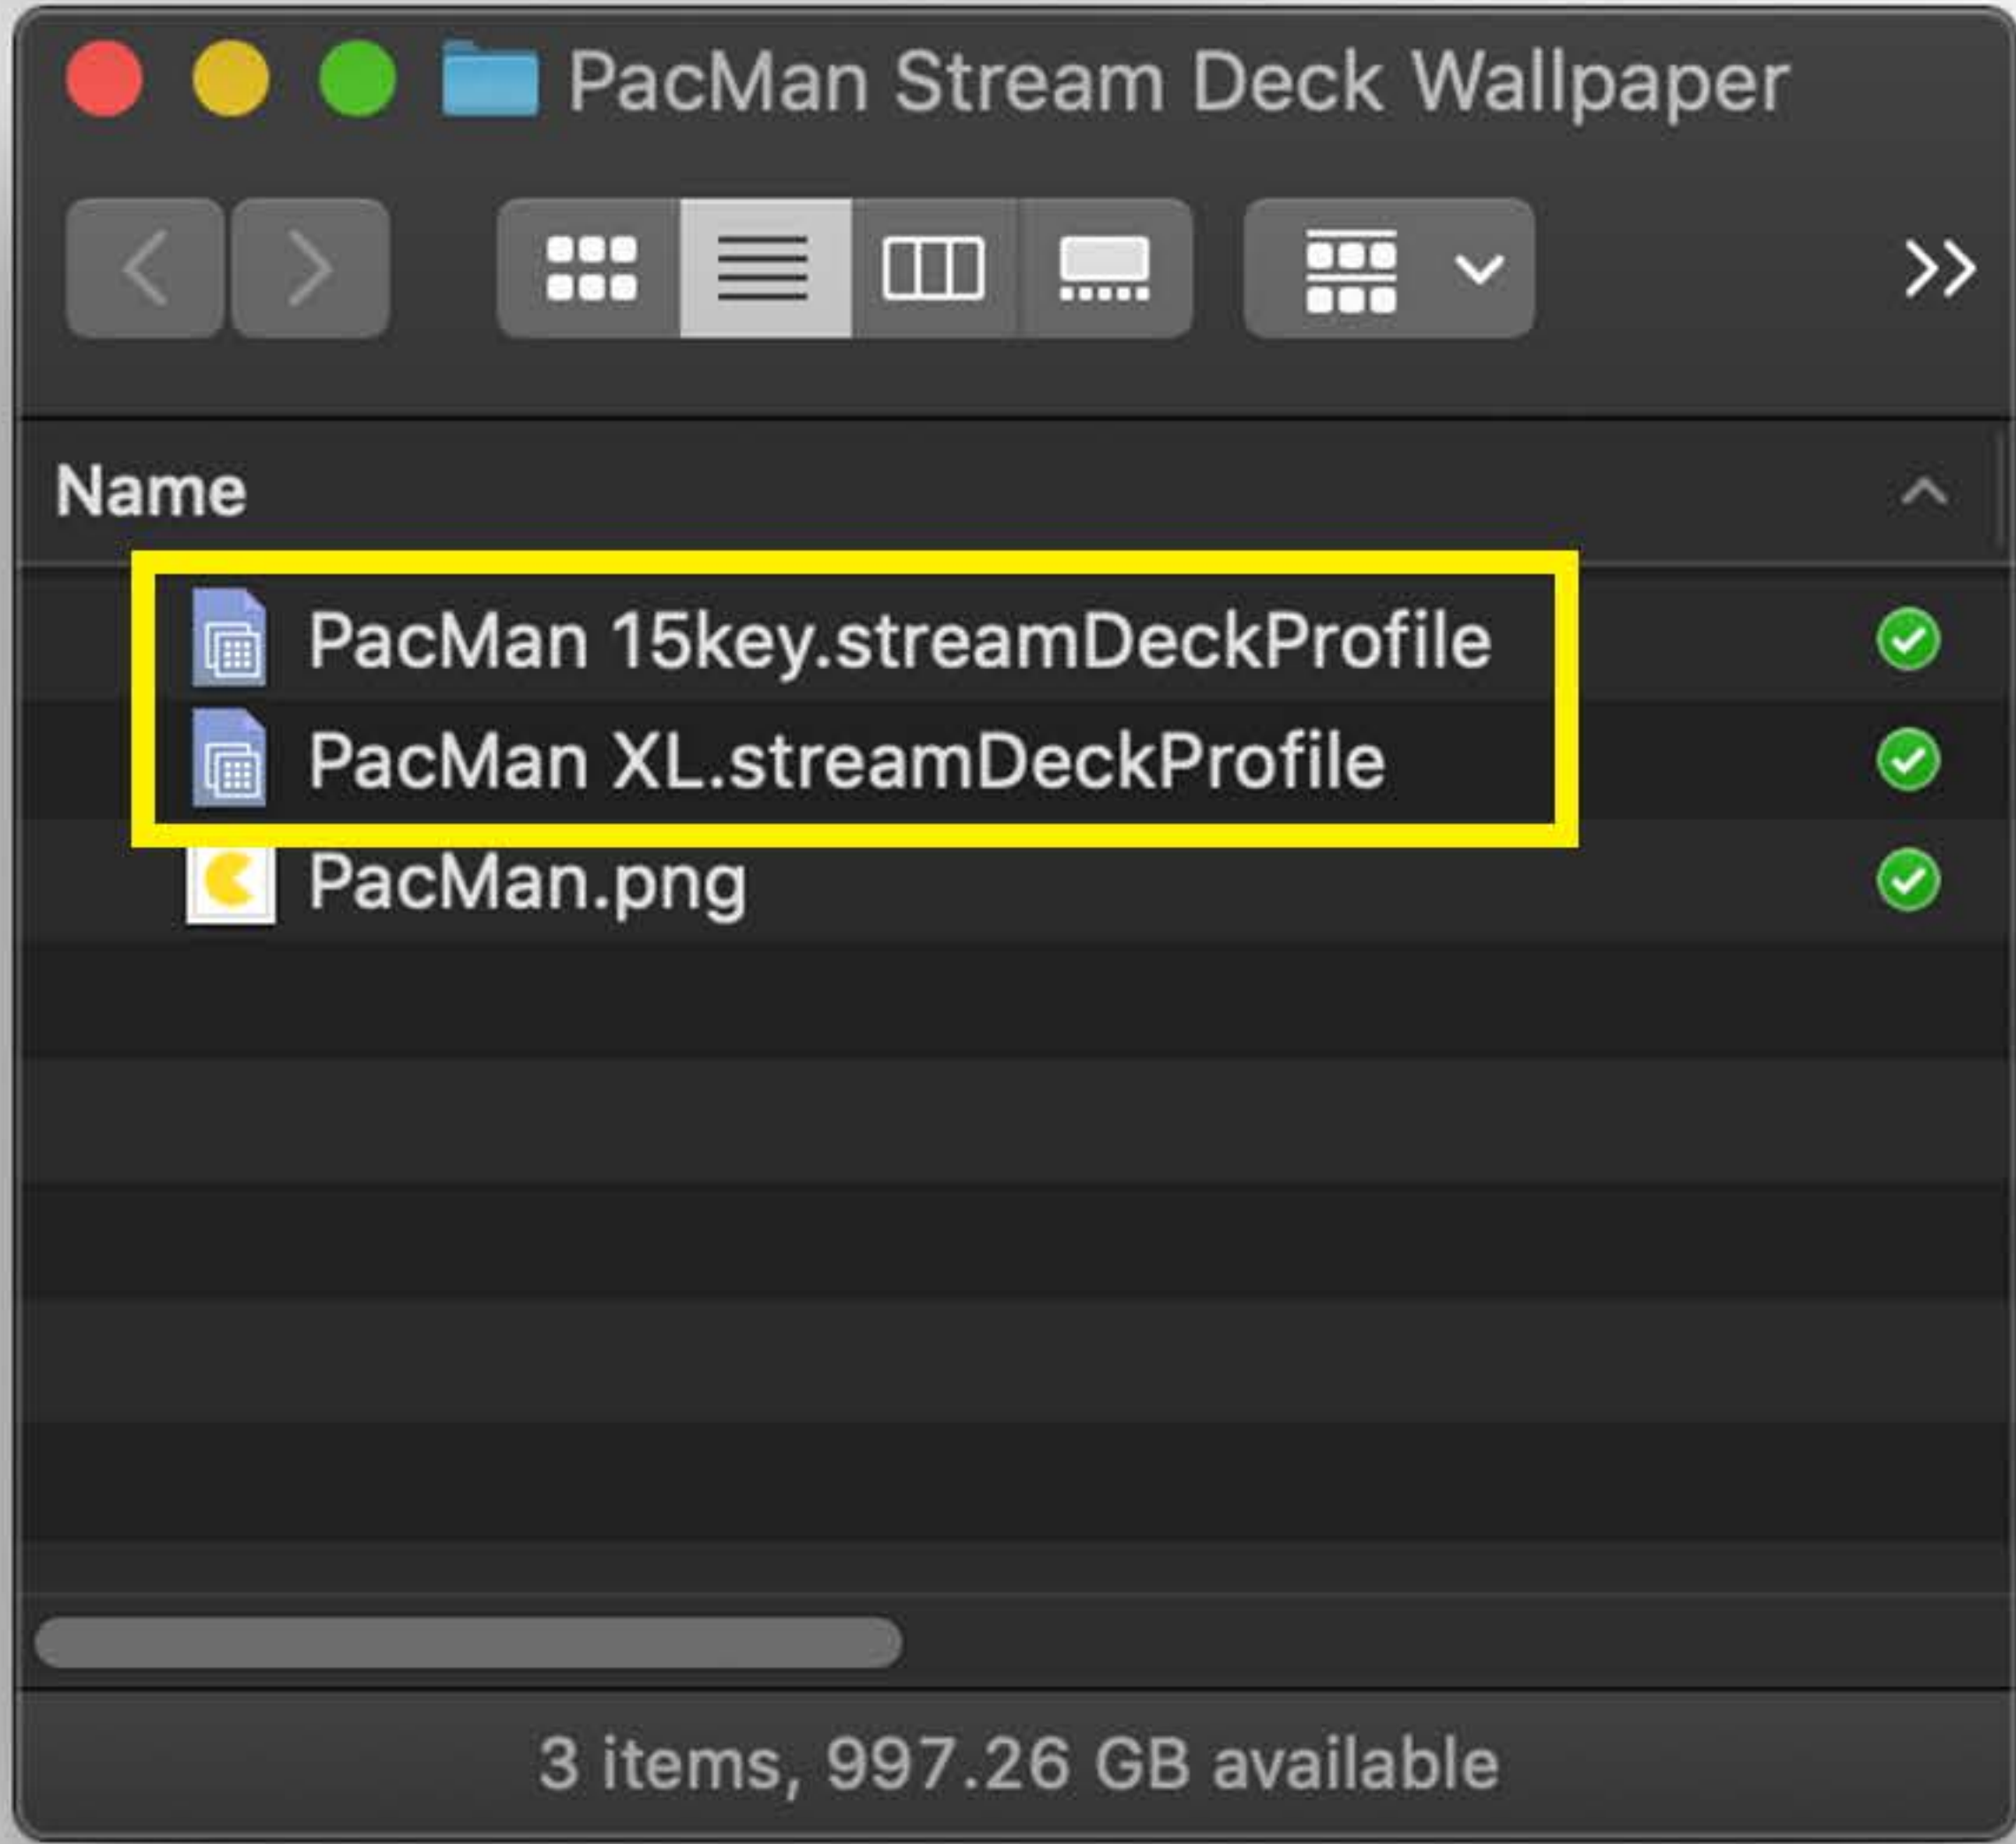

**PAC MAN
STREAM DECK
WALLPAPER
INSTALLATION**

In the Preferences pane, select the dropdown menu and select “Import”

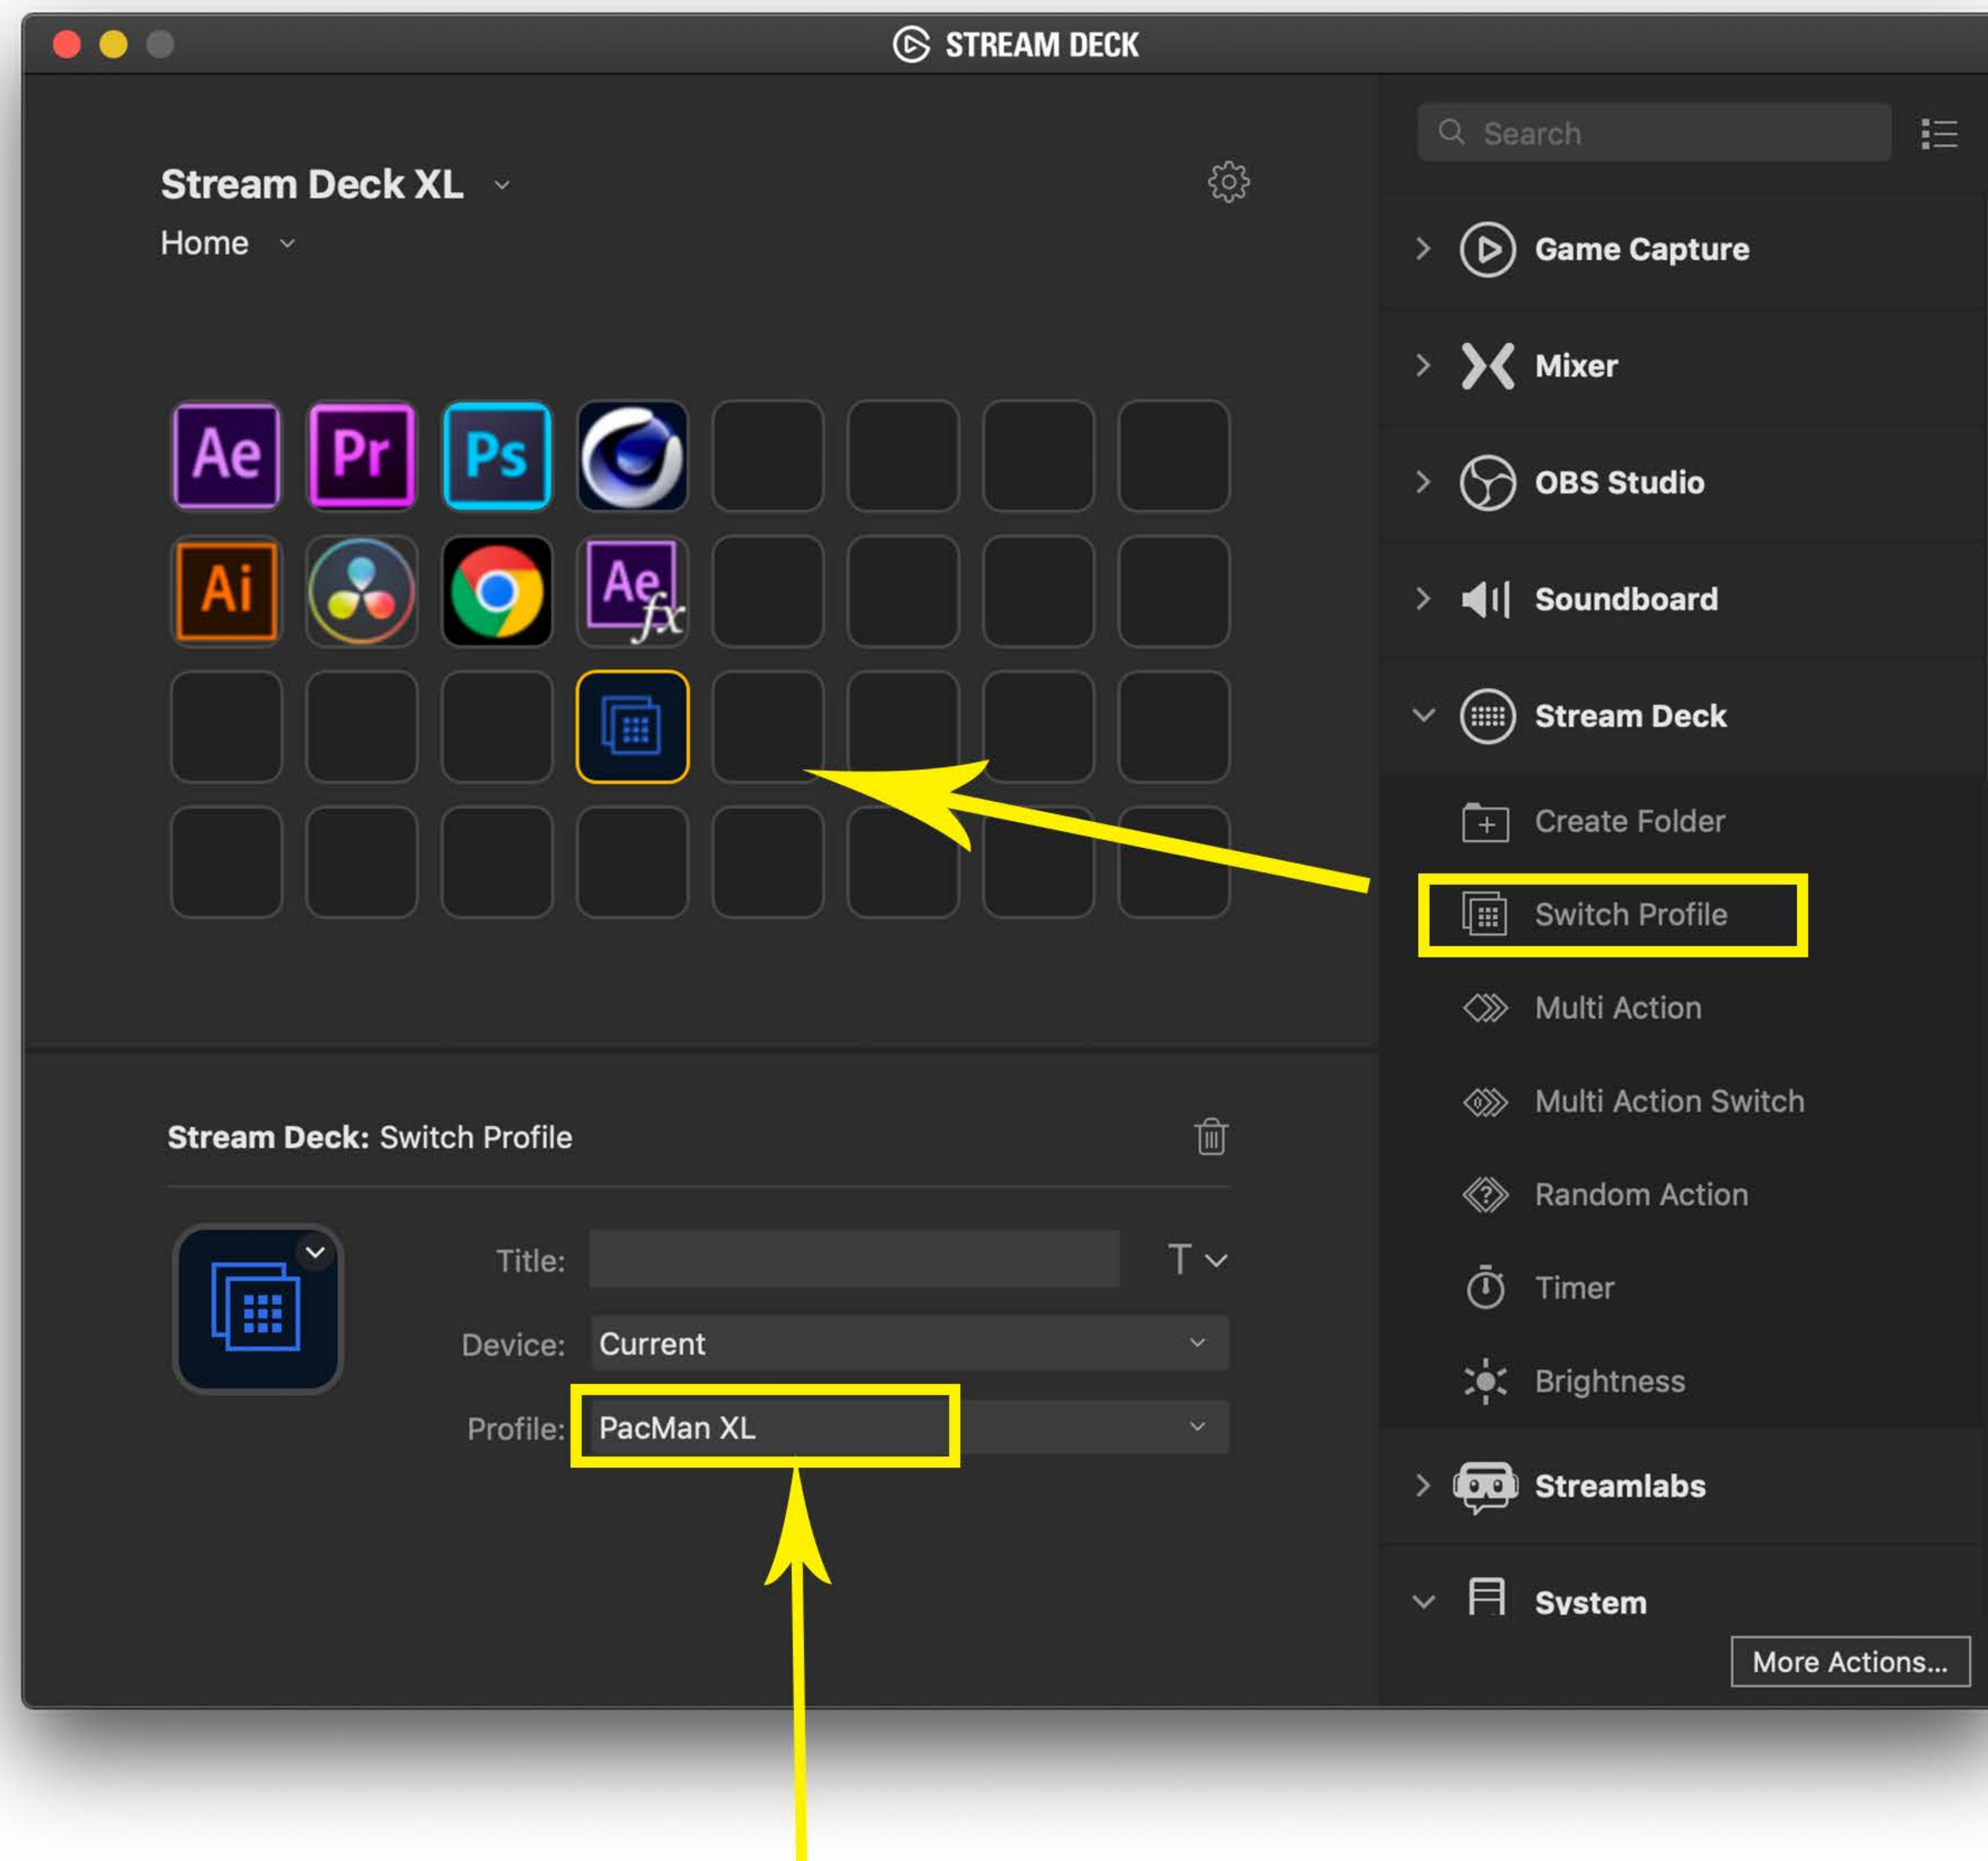

Select the profile for your device (15 key or XL) from the downloaded file

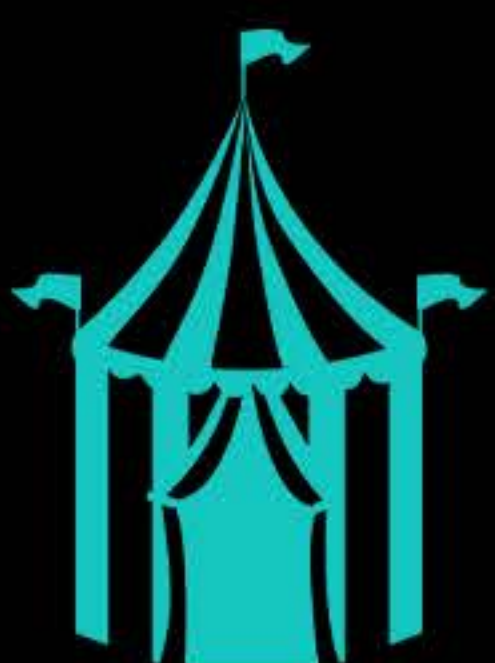

PAC MAN STREAM DECK WALLPAPER INSTALLATION

In your Stream Deck Home Page* create a “Switch Profile” button by dragging the Switch Profile Menu item from the right to any empty button

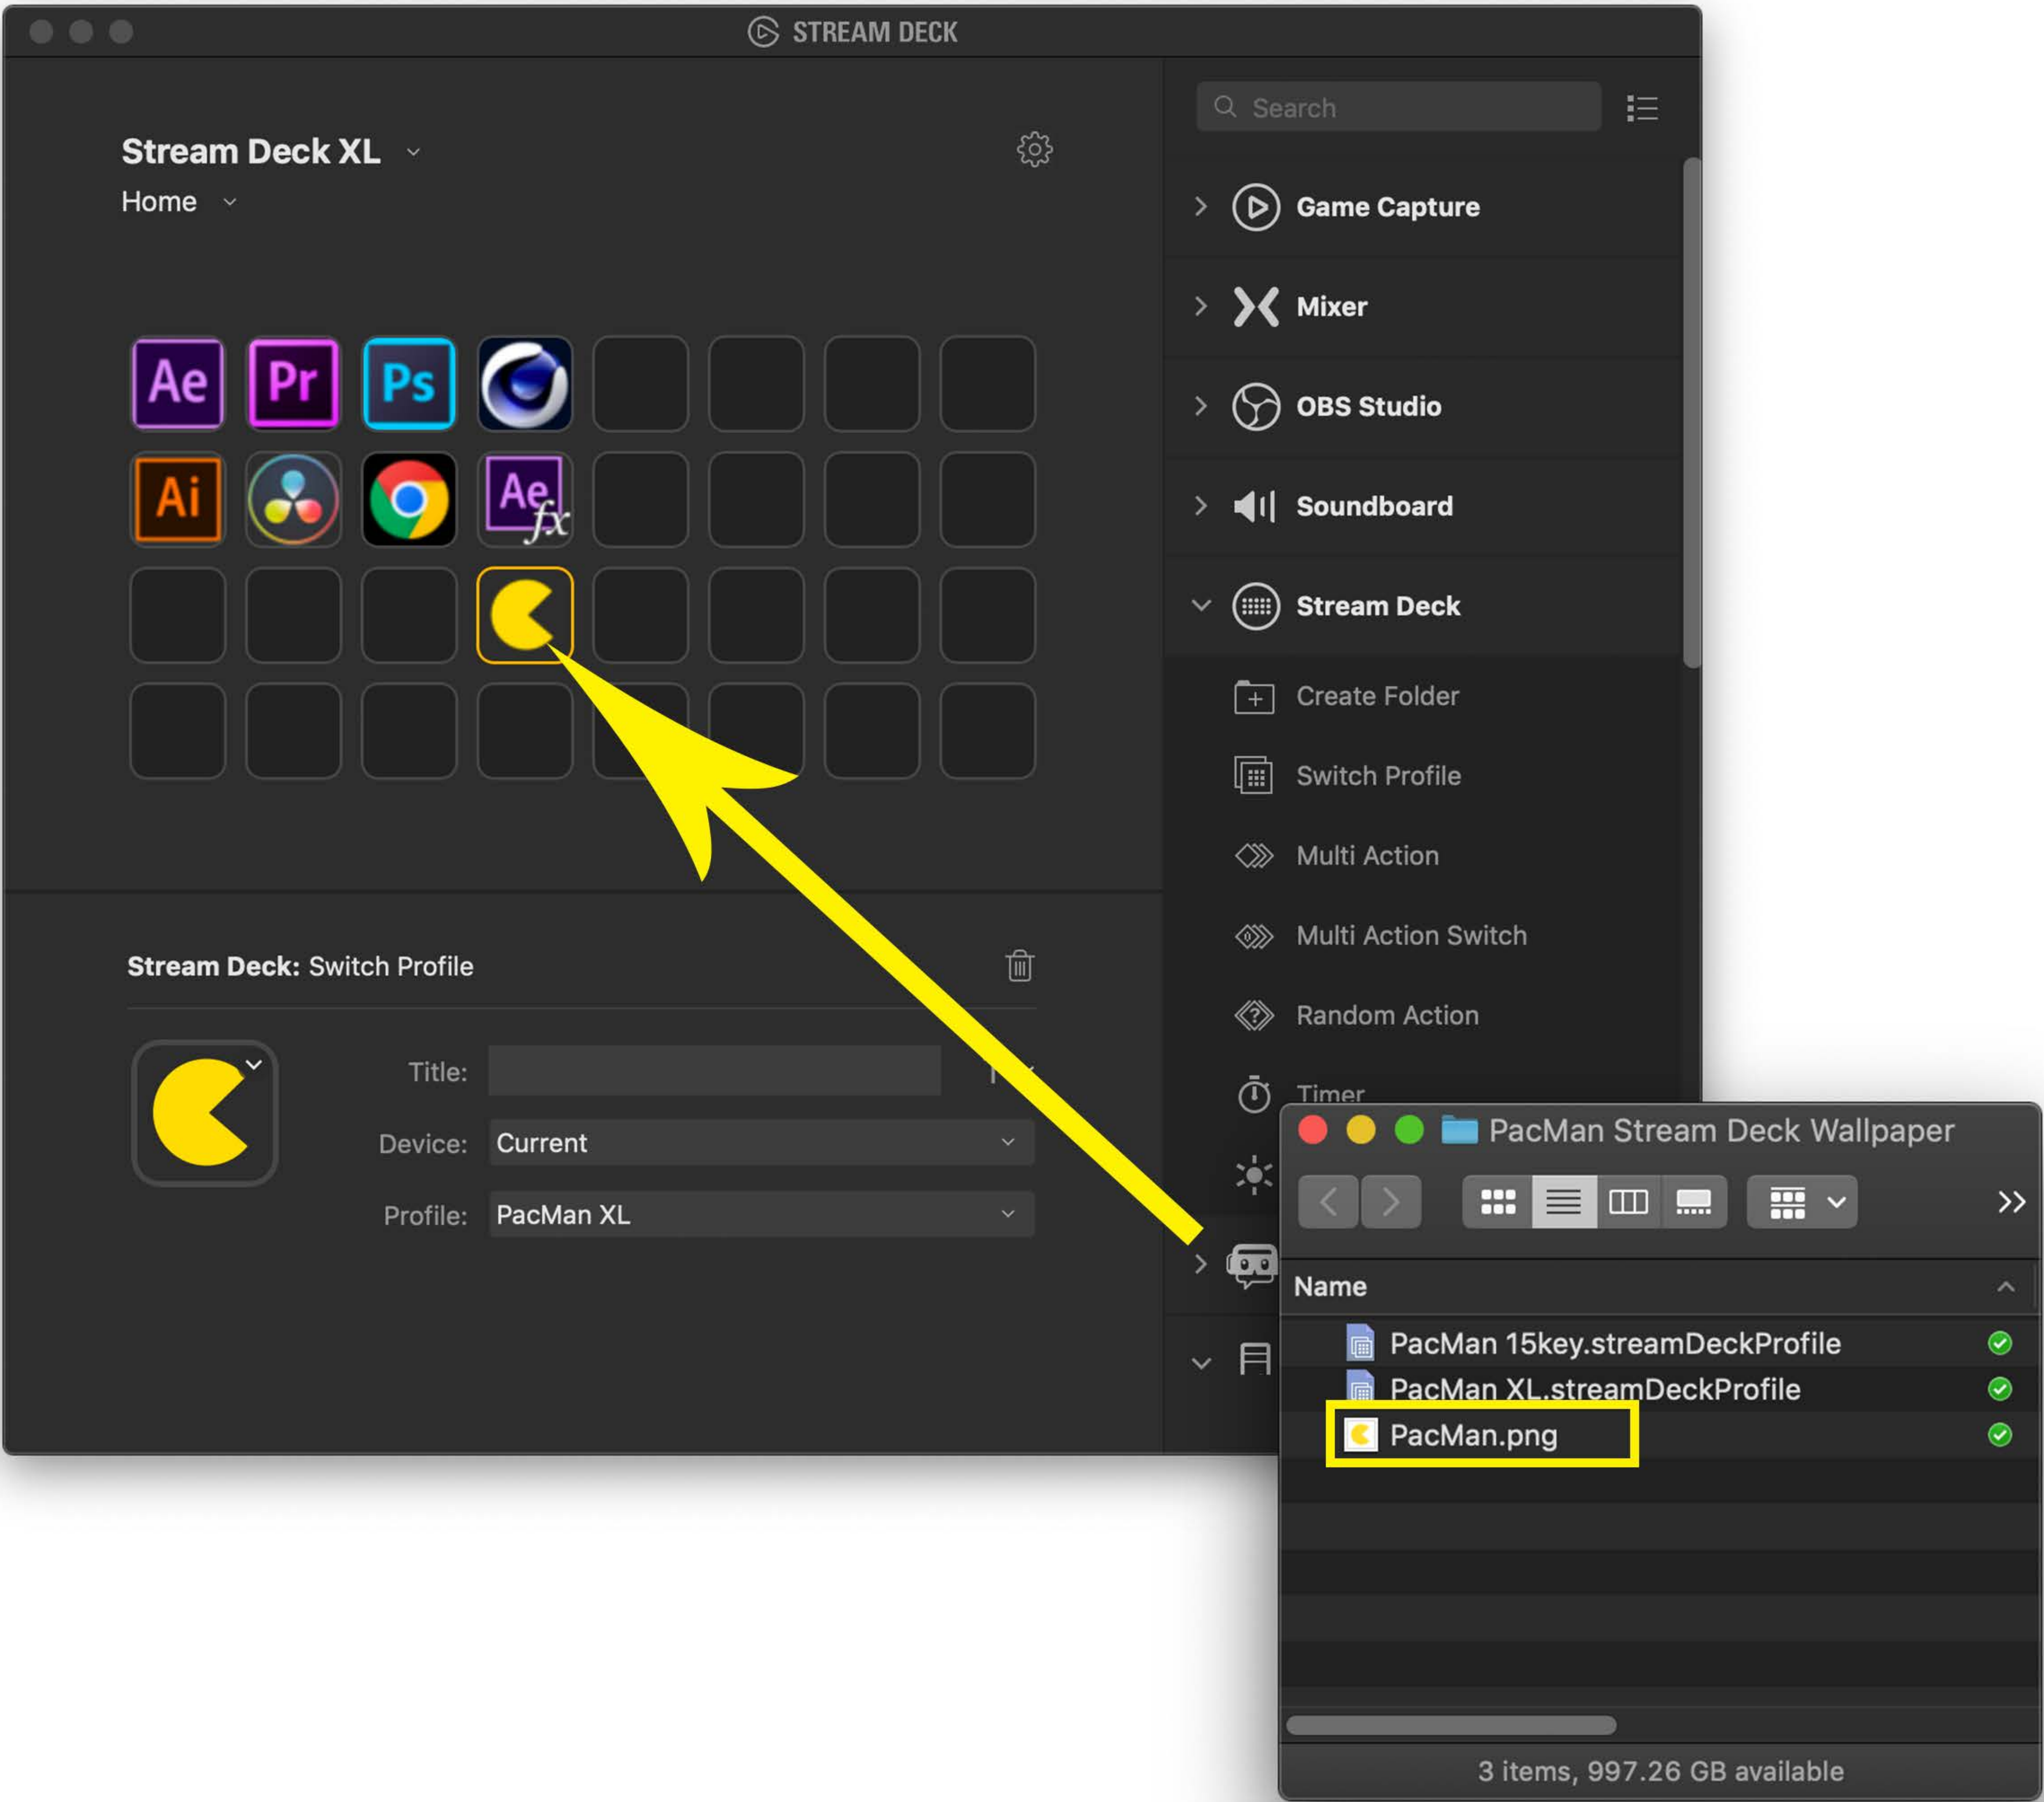

Set the Profile to the PacMan profile you just imported (PacMan XL or PacMan 15key)

*You can create this button on any page you like but be aware that pressing any button while the wallpaper is playing will take you back to your home page regardless of where you put this button.

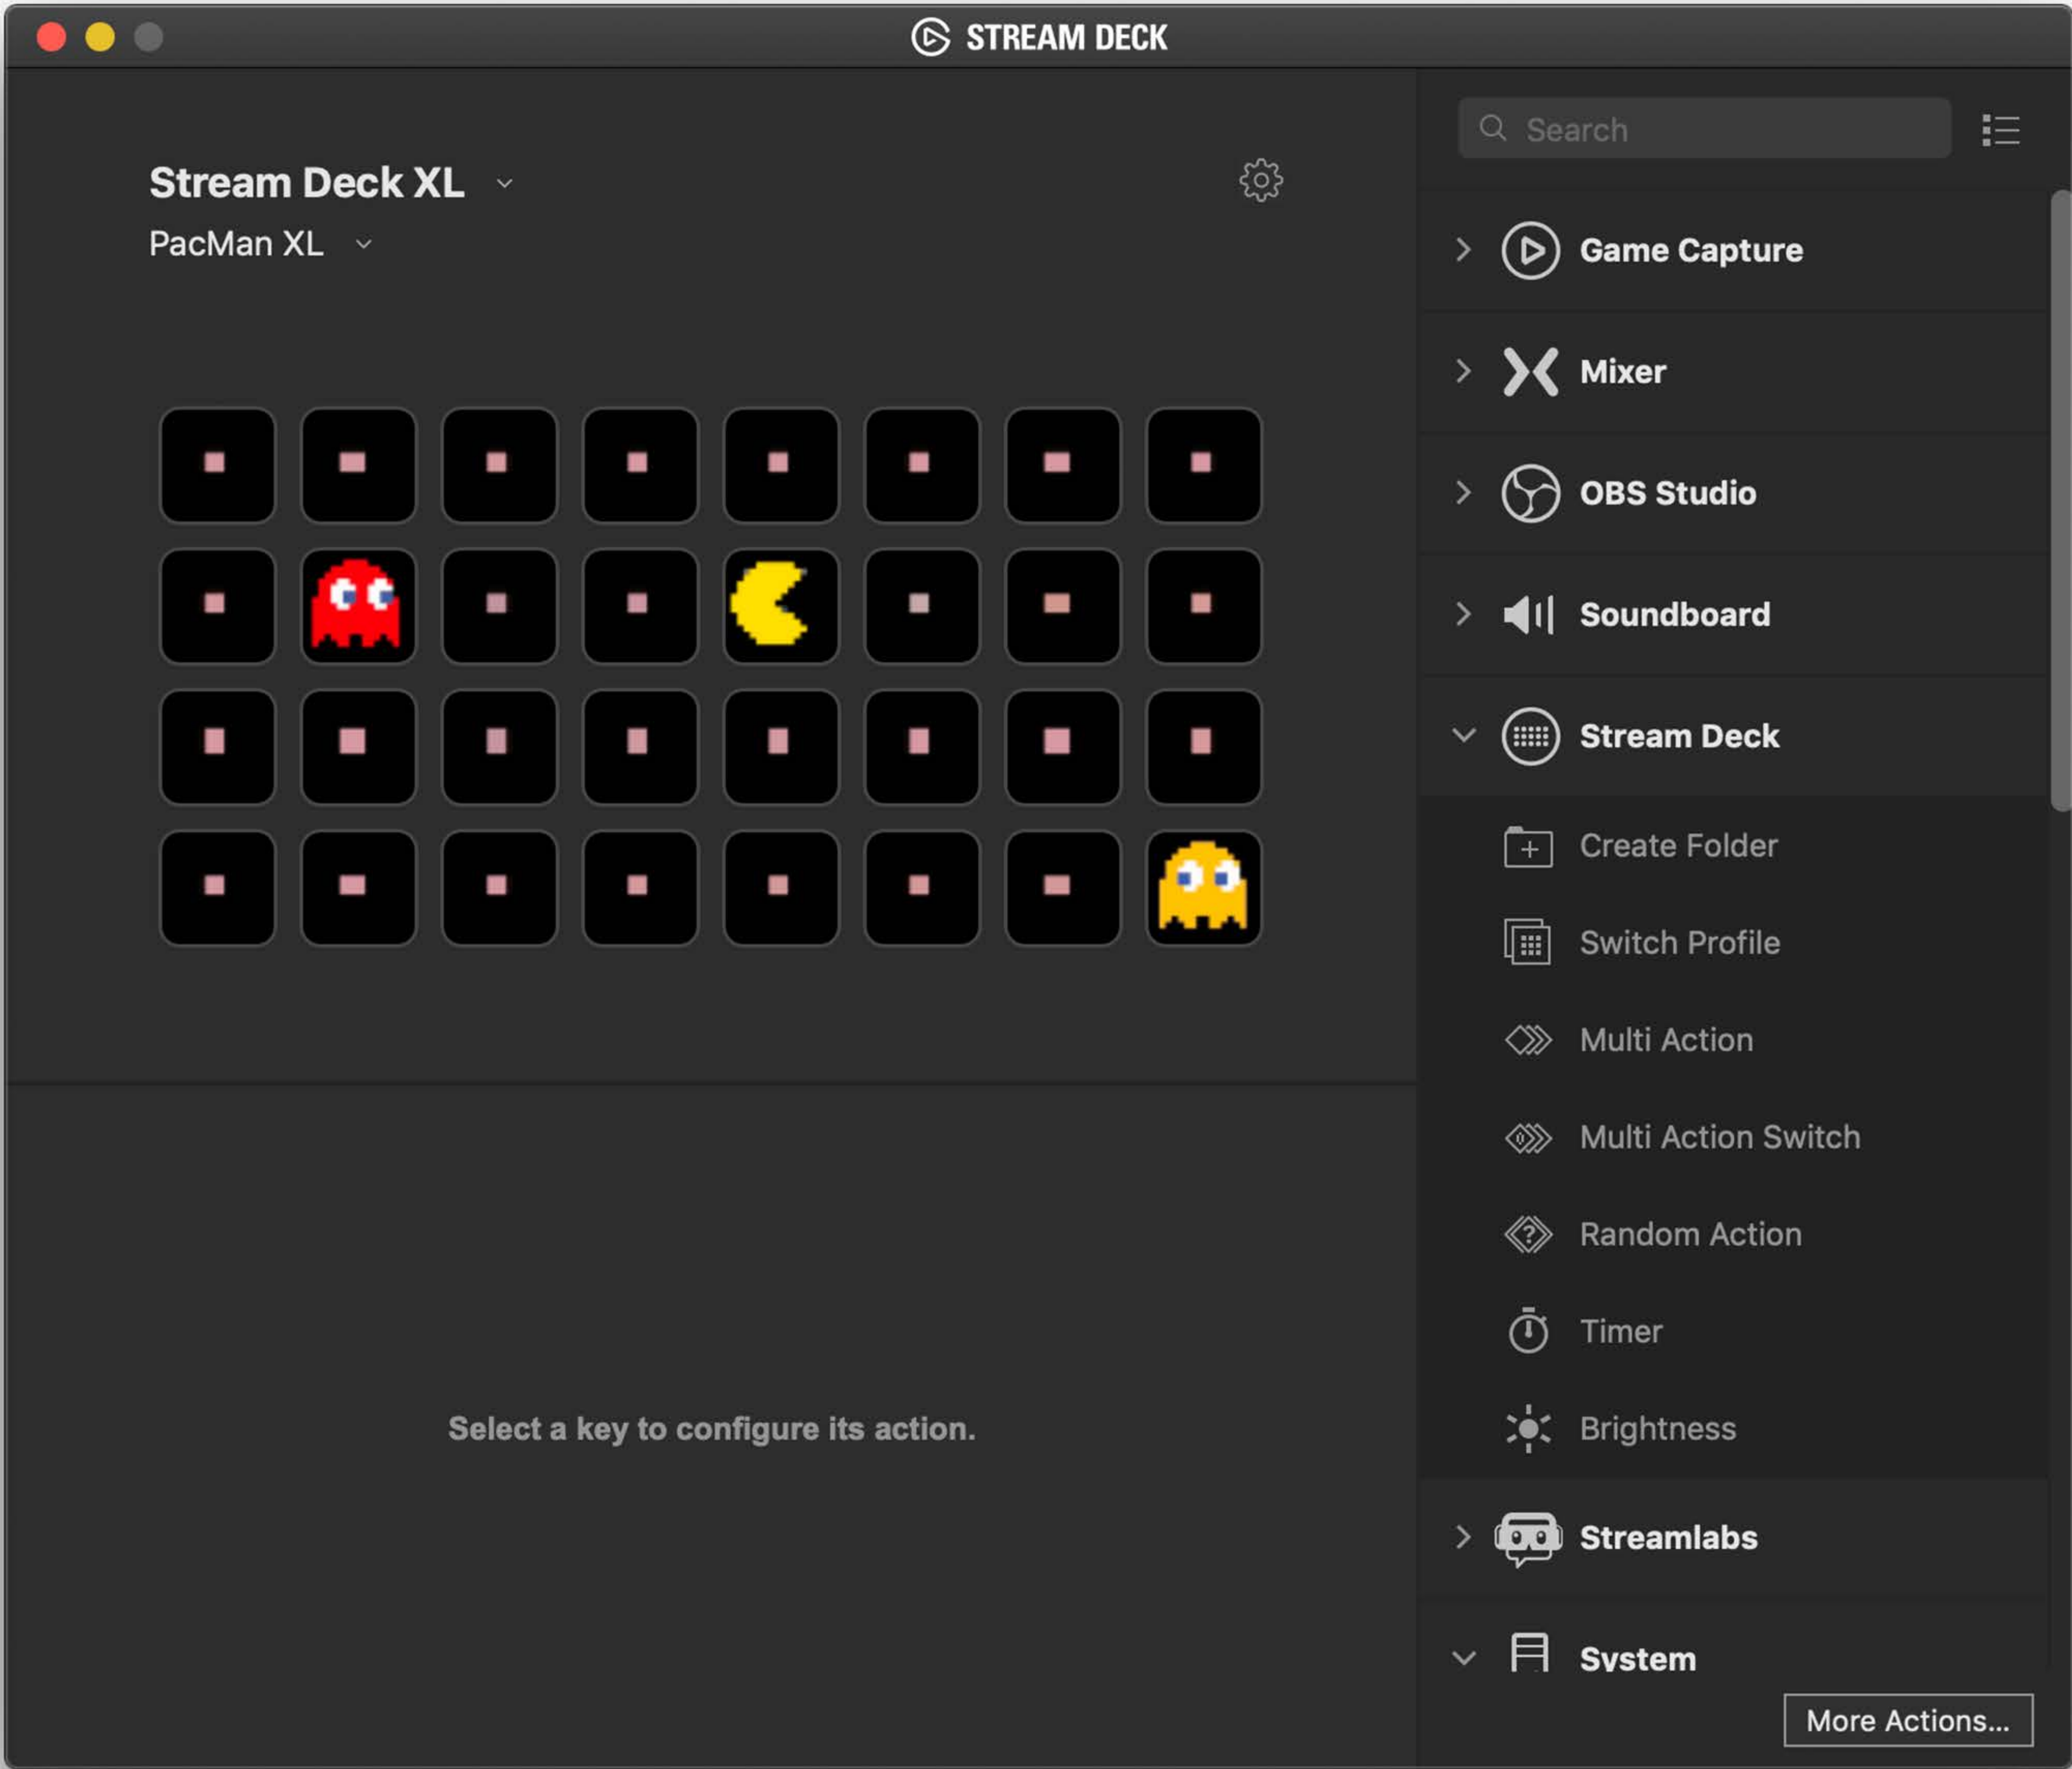

**PAC MAN
STREAM DECK
WALLPAPER
INSTALLATION**

Drag the “PacMan.png” image to your newly created button

**PAC MAN
STREAM DECK
WALLPAPER
INSTALLATION**

The wallpaper will continuously loop until you press any button which will take you back to your home page. This is strictly a wallpaper, no interaction or gameplay is programmed.
